SIGN RESTRICTIONS

1. Political signs shall not be illuminated.
2. Political signs shall not be larger than 6 square feet per sign face or 12 square feet in sign area if two-sided.
3. On lots used for residential purposes, the total area of all signage may not exceed 60 square feet per lot. On lots used for commercial or industrial purposes, the total area of all signage may not exceed one square foot of sign area for every three linear feet of street frontage.
4. Because of the nature of materials typically used to construct political signs, to avoid the unsightliness or deteriorating signs and all safety concerns which accompany such a condition, political signs must be removed or replaced when the sign is deteriorated or within sixty (60) days from the date the sign is posted, whichever comes first. The City may cause the removal of any deteriorated sign and charge the expenses for the removal to the owner of the property on which the sign is displayed.
5. Political signs shall not be displayed in the right-of-way.
6. No political sign may be attached to or supported by a tree or utility pole.
7. The sign must be constructed of poster board, cardboard, masonite, plywood or plastic material and mounted to wood, metal or plastic frames or supports.
8. No pennants, banners, streamers, spinning or similar moving devices shall be permitted.
9. All political signs shall be secured in such a manner as to prevent swinging or other significantly noticeable movement resulting from the wind.
